

## “Light Out Of Darkness”

(Music & Lyrics: Julience)

Alone in a city street the night's fading in  
I walk from the dark to a motionless crowd  
That waits for the dawn to come  
And break up the masquerade  
The hopeless divide of truth and lies  
That shimmers in neon lights  
To entice the beam in our eyes  
In time

A ray of sunshine in the rain  
Like a rush of blood to the brain  
Yeah like a light out of darkness  
She was there  
And she took away the pain

I never thought I'd see the day  
Something good coming my way

# Light Out Of Darkness

Lyric Sheet 2/3

---

Though stars fade and die

In the wink of an eye

As the rise of the tide

Where oceans collide

A ray of sunshine in the rain

Like a rush of blood to the brain

Like a light out of darkness

She was there

And she showed me the way

Yeah yeah

Like a ray of sunshine in the rain

Like a rush of blood to the brain

Yeah like a light out of darkness

She was there

And she took away the pain

Lyric Sheet 3/3

This heart of mine take it with you

Love's made for two

Make it alright and let it ignite

Don't flee from the fight

Let it inside make it alright

A ray of sunshine in the rain

Like a rush of blood to the brain

Yeah

Like a light out of darkness she was there

And she showed me the way

Yeah

Like A ray of sunshine in the rain

Yeah like a rush of blood to the brain

Yeah yeah

Like a light out of darkness

She was there

And she took away the pain
